

Pearsall Park

The trail leads from the dog park entrance of the park down to the river walking path.

Description

Pearsall Park is a 505-acre park that opened in 2016 on the South side of San Antonio, Texas. The park offers 5km of walking/running paths.

For birding, I start at the parking lot next to the dog park and take the trail down the hill to the river. This trail takes you through large fields where you'll see Barn Swallows, Purple Martins, Western Meadowlarks, and many other birds.

Flanking the trail is a power line that American Kestrels and [Scissor-tailed Flycatchers](#) like to perch on to watch for prey.

Experiences & anecdotes

12/13/22 - This is one of my favorite and most-frequented birding spots in San Antonio, partially because of proximity but also because it's a great place to see a wide variety of birds. One of my most memorable experiences at this park was on October 16, 2021, when I arrived to find around 75 Western Meadowlarks flying all over the fields. They were on the ground, flying around in groups on both sides of the trail, and doing lots of singing and calling. It was my first time seeing so many of these birds at once. The experience made for a great TikTok video that I created.

Upon further reading when I arrived home, I learned that Western Meadowlarks are found in larger groups more often than their Eastern counterparts. I'm honestly not able to tell the difference between the two birds visually, but [Merlin](#) helped me identify them via the noises that they made.

Barred Owl we found on the first bird walk I led. 05/21/22

This a great example of the varying tail lengths due to age. | 05/01/22

Audio recordings

- [ML380069681](#) - 0:10
 - *This is the song of the adorable Killdeer. It's a high-pitched, unique song that you often hear coming from the skies as the Killdeer fly above.*
- [ML380072711](#) - 0:10
 - *This recording is of the calls of the Ruby-throated Hummingbird. Portions of the clip are muted to strip out the errant noises.*
- [ML361453361](#) - 0:50
 - *A clear recording of the bouncy Carolina Wren call.*
- [ML359538311](#) - 0:12
 - *Listen to the complex song of the Bewick's Wren.*
